Subject: Acceptance of Compiled Notice of Intention to Commence Large Mining Operations (NOI).  
Great Salt Lake Minerals, GSL Mine, M/057/0002, Weber County, Utah

Dear Mr. Havasi:

Thank you for submitting the two clean copies of your compiled Notice of Intention to Commence Large Mining Operations (NOI). As previously indicated, the Division of Oil, Gas and Mining has stamped them 'Approved' and is returning one copy for your records. As future amendments/revisions are submitted, we ask that they be submitted as replacement pages.

The Division appreciates your work to compile this plan. Much of the information that should be a part of the regular NOI is contained in appendices, so we ask that, as time is available, you consider re-writing the NOI so it includes all of the amendments into a comprehensive document. This would eliminate several of the appendices since they are the plans and approval documentation for past amendments. This would also make it easier to submit future revisions as replacement pages, keeping your NOI clear and concise.

The Division intends over the next few months to conduct one or more inspections and compare the NOI with on-site conditions, and amendments may be necessary if discrepancies are found.

Thank you for your cooperation. We look forward to continuing to work with you on this project.

Sincerely,

Paul B. Baker  
Minerals Program Manager
